

## FORM 3 (Rule 5)

### Section 8 of Care of Cathedrals Measure 2011

#### Application to the Fabric Advisory Committee for approval of a proposal

**To the Fabric Advisory Committee of the Cathedral Church of:**

The Cathedral and Metropolitan Church of St Peter in York

**The Chapter of the said Cathedral Church applies to the Committee for approval of the following proposal: *short description***

The Chapter of York proposes to add barriers around two medieval cope chests on display, to effectively manage their care.

**Summary of the nature of work and its extent (and materials) [or in the case of an object, a short description of it and details of the proposal]**

The wooden cope chests (one 12<sup>th</sup> century, one 13<sup>th</sup> century) have been relocated from the South Quire Aisle to the Lady Chapel and the North Quire Aisle, due to scaffolding associated with the conservation of the St Cuthbert Window. The metal barriers protecting them were purpose-built for their old location, and cannot be transferred to their temporary locations. New museum standard barriers will provide enable the public to clearly see the cope chests while discouraging touching. They are free-standing, and are not fixed to the floor or walls. They will remain in place for 3-5 years, until such time as the conservation of the St Cuthbert Window concludes and the chests are moved back to the South Quire Aisle.

Please see the Project Proposal document for further details.
